THE TWO CAUCASES

Democrats Will no Doubt Meet Tuesday Next—Republicans Tonight.

Effort Made By Opposition to McCreery to Stave Off the Caucus Longer.

OTHER NOTES FROM FRANKFORT

Frankfort, Jan. 8.—It is almost certain that the Democratic Senatorial caucus will be held Monday night next. The three candidates who oppose McCreery, however, are doing their utmost to stave it off longer, with a hope of gaining more ground, but to no purpose.

The Republicans called their caucus for tonight, and it now looks as if it is certain that Senator Deboe will get the nomination.

The joint caucus for the nomination of a state librarian may be called Friday evening. The general opinion as to the senatorial situation is that the caucus will be called Thursday evening.

The Republicans will hold a caucus this evening to make the minority nomination for United States senator. Senator Deboe is out for the honor and Congressman Boring would like it if it came his way.

Kentucky will certainly have a new capitol if the present good feeling among the senators and representatives continues. Scores of members have announced themselves in favor of the necessary appropriation, and not one has been found so far who is against it.

Politicians who have been here at former sessions say that never before has there been such a strong sentiment in favor of new buildings, and that if the senatorial race is not allowed to take too much valuable time there is an excellent chance of the bill going through.

Several important bills were introduced in the Senate this morning. One is for central controlling board to govern the charitable institutions a new school book bill and others.

JUDGE LIGHTFOOT

Performed His First Marriage Ceremony This Morning.

Mr. W. B. Scoffin and Miss Dora Garner United in Wedlock.

County Judge R. T. Lightfoot performed his first marriage ceremony this morning, when he united Mr. W. B. Scoffin of Chicago and Miss Dora Garner of the city in wedlock.

Miss Garner is a well known young lady of the south side, stenographer for Dreyfus and Weil, and Mr. Scoffin is well known here, having been employed in the circuit clerk's office about eight months ago. He went from here to Chicago, and is employed by the Postal in the office of the Chicago American as telegraph operator. The marriage was performed in the office of Judge Lightfoot and at noon the bride and groom left for Chicago, where they will reside.

SAID TO BE A VALUABLE CATCH.

INDIANA PRISONER ALLEGED TO BE A FAMOUS SWINDLER.

Richmond, Ind., Jan. 8.—A man giving the name of W. H. Hughes, now under arrest in this state, is declared to be a valuable capture, as there is said to be evidence to show a wholesale career of swindling in Tennessee, Missouri, Iowa, Kansas, Illinois and other states. His alleged game was to claim to represent the Curtis Publishing company, Philadelphia, and the National Cloak company, New York, each of which it is said has been after him for a long time. Rewards aggregating \$2,800 are said to be outstanding for the man, whose aliases are given as McVickers, Smith and McDonald. He will probably be sent to Illinois for trial.

SUBMITTED TO ARBITRATION.

Buenos Ayres, Jan. 8, via Galveston.—The governments of Argentina and Chile having come to an agreement as to the wordings of the clauses in the protocol referring to the policing of Ultima Esperanza, Argentina's rights in the matter being safeguarded, the representations of Argentina on the wording of the clauses referred to are ended. All questions in dispute will be submitted to arbitration of the British commission.

THE WEATHER.

Fair tonight and Thursday.

MINERS PERISH.

Many Entombed in Wisconsin—Only Two Alive.

Thousands of Tons of Ore Fell Without Warning.

Milwaukee, Wis., Jan. 8.—A special to the Sentinel from Negaunee says: "The most distressing accident occurring in this county for years took place at the Negaunee mine, by which from thirteen to seventeen miners are thought to have lost their lives. The accident was the result of a cave-in at the bottom of the shaft, and had it occurred half an hour sooner, about 150 would have been killed. The names of the dead so far as known are:

WILLIAM WILLIAMS.
JOHN SULLIVAN.
JOHN PASCOE.
JOHN PIERCE.
JACOB HUNLALLA.

Thus far but two bodies have been taken out, Hunlalla and an Italian, Dominic Basso, alive. Basso's story is as follows:

"We were sitting around the pump, at the bottom of the shaft, when without any warning thousands of tons of ore came down. I remembered no more until I heard the sound of picks and shovels in the hands of rescuers and their shouts. When the rescuers found me I was seventy-five feet from the place where I had been sitting and found myself in a drift."

TOBACCO SALES.

This Morning the First of the Year Were Held.

A Good Attendance of Buyers—Prices Were Fair.

Today the first tobacco sales of the season were held. The sales were at all three of the local warehouses, and there was a good attendance of out of town buyers.

The following is a report of the sales and the prices received:

The Western District Warehouse Co. report offering 49 hogheads with fair sales, but possible heavy rejections. Lugs sold from \$3.60 to \$4.15, and leaf brought from \$4.50 to \$5.55.

Farmer and Co. report offering 43, with heavy rejections. The tobacco is reported in bad condition. Leaf brought from \$4.50 to \$6.75 and lugs sold from \$3 to \$4.50.

Gilbert and Co. report offerings 59 with heavy rejections and prices unsatisfactory. Common leaf brought from \$4.25 to \$6.75, and medium leaf sold from \$5.50 to \$5.80. Lugs brought from \$3.38 to \$4.

Generally the market is considered unsatisfactory in every respect. Hardly Little, who had arranged to auction leaf from the wagon, has already secured eight wagon loads of leaf to sell at the sale next Tuesday morning at 10 o'clock, at Third and Jefferson streets.

TRIED TO CORRUPT SNOW.

OLEOMARGARINE AGENT HANDED FOOD COMMISSIONER BRIBE AND WAS ARRESTED.

Detroit, Mich., Jan. 7.—A special to the News from Kalamazoo, Mich., says: "An attempt to bribe State Food Commissioner W. B. Snow of this city in order to prevent prosecutions for the sale of oleomargarine ended in the arrest last night of Charles H. Thompson of Chicago in Commissioner Snow's house. Snow was approached some time ago by an alleged representative of a packing plant. With the knowledge of the prosecuting attorney and Governor Bliss, Snow, it is said, agreed to accept as a bribe half a cent per pound for all that brand oleomargarine sold in Michigan, and in return was to see that there were no prosecutions of that company's agents in the state for violating the pure food laws. Thompson went to Commissioner Snow's house by appointment Monday evening, and handed him a check for \$120. Snow opened a door to another room as a signal to Sheriff Glenn Shipmen, who stepped out. Thompson was immediately arrested. This morning Food Commissioner Snow swore to a warrant charging Thompson with offering a bribe."

CAN'T BEAT PADUCAH.

Mr. E. Hendrick, with the National bank of North America, of New York, is in the city on business. He is making a tour of the south and says that Paducah is the best town of its size he has struck since he has been in the south.

Mrs. Adam Keller and children, of Owensboro, who came here to attend the Christmas-Dipplo wedding December 31, returned home at noon today.

SOUTHEAST SENSATION

It Is Alleged That There Is a Child In a Well in Mechanicsburg.

Whisperings Heard Among the People For Some Time Past—Needs Investigation.

SOME OF THE RUMORS ARE STARTLING

There have been dark rumors afloat in Mechanicsburg for the past two or three weeks of the body of a child being concealed in a well. It is impossible to get at the facts, because seemingly no investigation of the reports has been made, at least not a full one.

It is claimed that the body of an infant was thrown into a well to conceal its birth. It is not believed that the infant was alive, but is firmly believed by all the people in the neighborhood that the body is in the well.

It is said that a girl of that part of the city became ill, and soon afterward something in a box was thrown into the well. The girl, according to reports, was engaged to marry a young man from a distance about Christmas time, but when he came here he suspected that all was not right, and declined to carry out his part of the agreement.

Shortly afterwards the girl married another young man, going to Metropolis.

A lady waited on the young woman when she was ill, and declares that something was concealed under the bed in a box for two or three days, and when she made inquiry, was soon convinced by their reply that her inquisitiveness was very distasteful. The box was soon afterwards thrown into the well.

The rumors began to fly thick and fast, but the neighbors could do nothing. In a few days, however, the family moved, and one of the neighbors took the trouble to drag the well. The box was fished up, and found to contain portions of clothing and other evidence that it had contained the body, but as it was hauled out, it is supposed the body fell into the water, and is now at the bottom of the well.

The woman who attended the girl is known, the doctor in the case is known, the man who fished out the box and clothing is known, but it is alleged the doctor was not sent for until after the birth of the child had taken place and been concealed. The police have heard of the case, and one officer made an investigation, but what the people of that section of the city are interested in is whether or not it is a child's body in the well, and if so, why it was placed there.

It was not long ago that somebody in passing the county graveyard in that portion of the city saw two men burying something there. About that time the burglary of J. J. Bleich's occurred, and it was thought it might have been some one burying the loot, but when the police went up and investigated, it proved to be the body of a child that someone had surreptitiously buried. As nothing could ever be learned of the identity of those burying it, there were never any further developments.

CIRCUIT COURT.

A FEW SMALL JUDGMENTS CONFESSED THIS MORNING.

The following judgments were confessed by the non-appearance of the defendant in circuit court this morning. They are the first judgments filed in the circuit this term.

L. B. Ogilvie and Co. against Fletcher Torrell, confessed judgment for \$252.82.

M. L. Birge, Sons and Co., against L. P. Balthasar, confessed judgment for \$342.74.

James Garnett against W. H. Wells, confessed judgment for \$132.65.

Kitty Anderson against J. H. Little, judgment for \$40.

The case of L. G. Saddler against P. L. Ramsey, suit on a note, was appealed after a new trial had been refused.

Nothing further was done in the circuit court today only motions being entered.

THE HARDWARE TRUST.

NASHVILLE PARTIES IN INTEREST DECLINE TO GIVE OUT DETAILS.

Nashville, Jan. 8.—B. M. Dudley, president, and John M. Gray, Jr., vice president of the Gray and Dudley Hardware Co., this city, returned today from New York, where they went to confer with interested parties regarding the proposed hardware trust. President Dudley said it was impossible yet to say what would be done. No company, he said, had been organized, although the subject had been widely conversed, and might yet result in something tangible.

MISS COCKRELL, WHO CHRISTENED THE MISSOURI.

FIFTEEN PASSENGERS KILLED IN A TUNNEL IN NEW YORK TO-DAY

New York, Jan. 8.—There was an awful collision of passenger trains in the tunnel on Fifty-sixth street, between New York Central trains, and fifteen people were killed. Several, the exact number not now being known, were badly injured.

GROCERY BURGLARIZED. USED MAD STONE.

Goods Being Taken Away. By the Basket Load. Man of Graves County Wanted It For a Wound on Hand.

Scott Overton, the Proprietor, Heard of it and Fired at the Thief.

The grocery of Scott Overton, colored, corner Tenth and Caldwell streets, was broken into last night and goods to the amount of about \$20 stolen.

The burglary was committed about midnight, and entrance was effected by aid of a crowbar at the back door. In bursting the door in, the neighbors were awakened, and Overton was apprised of the fact that his place of business was being looted. He dressed and hurried to his store, arriving in time to see the thief sneaking away with a basket load of eatables. Overton fired his pistol at the man, but failed to hit him. The basket was dropped, however, and the thief made good his escape. Overton says that the burglar was colored, but that he failed to recognize him. About four loads were taken away in a basket, consisting of canned goods and stove polish, principally.

Mr. Frank Mantz has gotten his mad stone back. Over six weeks ago Miss Amelia Roark of Greenville, Ky. who was bitten on the foot, came to Paducah to have the mad stone applied. It stuck for about a week, and then she left, apparently satisfied the wounds having about healed up.

In a few days she came back to have the stone again applied, and said she was going to stay until it finished sticking. It adhered to the wound, or rather to her foot, and there she kept it sticking nearly constantly until day before yesterday, when Mr. Mantz sent for it.

Yesterday Mr. Joe Rennolds of Lowes Cross Roads, Graves county, came to the city to have the stone applied to wounds on his hands. He was bitten by a dog supposed to be rabid, and the stone was sent for by Mr. Mantz, and turned over to the Graves county man.

NEIGHBOR ARRESTED.

B. ALDERSON CHARGED WITH ASSASSINATING PLEAS HALL.

Franklin, Ky., Jan. 8.—B. Alderson, a prominent farmer has been arrested for the assassination of Pleas Hall, the farmer who was shot and killed Sunday while sitting before the fire, falling over dead in full view of his family.

Miss Louise Bracken, of Dyersburg, who has been the guest of Miss Marie Noble, of West End, returned home yesterday evening accompanied by Miss Noble, who will visit her for a week.

Mr. W. B. Scoffin, a telegraph operator well known here, who formerly worked for a time as a deputy circuit clerk, is in the city on a brief visit. He is now working for the Postal in Chicago.

Mayor Yeiser Will Appoint a Committee to Go to Frankfort Soon.

It Will Be Headed By Former Mayors Charles Reed and James M. Lang.

THE TIME NOT DECIDED ON

Mayor Yeiser stated this morning that he has not decided when he will appoint the committee that is to go to Frankfort to work in the interest of having the transfer made, placing Paducah in the second class instead of the third.

It will probably be several days before the papers in the case are all complete, and when they are forwarded and the bill is drafted by our representatives and introduced it will be time enough to leave, and this may not happen for several weeks, as the legislature has the election of a United States Senator, a librarian and the consideration of other business before it has time to consider such trivial things as changing the class of Paducah.

Mayor Yeiser stated this morning that he has not decided exactly who will be on the committee, but he is sure that he will appoint Former Mayors Charles Reed and James M. Lang to head the delegation, believing that they, as ex-mayors, can do the most effective work for the city.

Another thing that Mayor Yeiser wants to precede any action tending to get us into the second class is the meeting of representatives of second class cities to agree on amendments they desire to be made to the charter.

NEW DIRECTORS.

NO ELECTION OF Y. M. C. A. OFFICERS, HOWEVER, HELD LAST NIGHT.

The following is a list of the new directors of the Y. M. C. A., elected yesterday: Messrs. F. M. McGlathery, H. P. Sights, John Rock, L. E. Durrett and E. W. Smith, for a term of three years, and Messrs. Samuel Hubbard, D. M. Flournoy, Lewis Bebout, S. B. Caldwell, Jr., and J. D. Moquet, for a term of two years.

On account of the absence of a quorum last night the officers were not elected, and the election was deferred until a future date.

Secretary Escott has arranged for a men's meeting at The Kentucky, to be held by Rev. Arthur Crane, the evangelist now holding a revival at the First Baptist church. The management of the theatre has offered his house to the association for this purpose, and a better place could not have been secured. The meeting will probably be held Sunday afternoon.

The board of directors have been called together again tonight and will have a quorum it is thought.

FUN PROMISED.

CARNIVAL PEOPLE COMING HERE THIS WEEK TO CONFER.

Chairman L. A. Lagomarsino this morning received a telegram from the Bostock Carnival people saying that Mr. Potter, their representative, will be here Friday, and not to close any contract until he comes and can be heard.

Mr. Gaskill of Cleveland, O., was telegraphed this morning that the committee is ready to hear propositions, and expects him on the same day. This means that there is going to be some lively competition among the carnival people to get the contract for furnishing the Midway attraction for the carnival, as Paducah is known far and wide as one of the best carnival cities in the country, and they all want to come here.

The committee on arrangements will meet Sunday to appoint sub-committees to further prosecute the work.

DESPERATE ATTEMPT.

WHY THE MAN KILLED BY CHICAGO EDITOR TOOK TO HIGHWAY ROBBERY.

Chicago, Jan. 8.—The hold-up man who was shot and killed by Eugene Hector here a few nights ago was today identified by a man who refused to give his name as John Ryan, the son of a man who is said to live on Broom street, New York City. According to his statements, young Ryan came to Chicago a few weeks ago in quest of work. His funds slowly disappeared, and he was forced to take up his home in cheap lodging houses. Finally he became desperate and the attempted hold-up followed.

NO POLICE COURT.

There was no session of the police court this morning as no arrests had been made last night.

MORE SOLDIERS.

Several Additional Recruits Enlisted in the United States Service.

They Were Taken to Columbus, O.—Hospital Corps Recruit Wants Service Now.

Corporal Shackelford yesterday afternoon enlisted the following recruits: James Underwood, of Metropolis; Samuel F. Williams, of St. Louis; Fred Glass, of Lamasco, Ky.; Eunice Allensworth, of Beattyville, Ky.; Oril C. Baker, of Hopkinsville, and Louis Levy, of the city. They were all enlisted in the regular infantry and were taken to Columbus, O., last night for drilling. Levy had a brother to join the army last year and he is now in the west.

Mr. Henry F. Johnson, of Franklin, the only recruit so far to enlist in the hospital corps, was telegraphed to headquarters for immediate transfer to Washington to enter the service immediately.

SAFETY PIN

Was Swallowed By a Calvert City Youngster.

Brought to the City Today and the Obstruction Removed By Dr. Murrell.

Dr. D. G. Murrell, chief surgeon of the I. C. hospital corps, removed an open safety pin from the throat of a fourteen-months-old child this morning early.

The child is the son of Mr. L. W. Davis, of Calvert City, and swallowed the pin last night about 6 o'clock. The little fellow swallowed the pin, point up, which made the removal the more difficult on account of the point entering in the child's throat. The pin lodged deep in the throat and it required the most difficult work to remove it. Dr. Murrell did not cutting but the child had to be placed under the influence of chloroform before the removal could be effected.

TROOPS NEEDED.

Jackson, Miss., Jan. 8.—The governor's guards have been ordered to proceed to Oxford, Miss., to protect Will Mathis, the alleged murderer, and those in jail with him under the charge of complicity, from a threatened mob.

COMPLETE CENSUS.

Washington, Jan. 8.—The census bureau today issued a report announcing that the population of the entire United States, including all outlying possessions, was 84,233,069 in the census year 1900.

The Sun has removed to the old News stand, 115 South Third street.

As it will in all probability be some little time before the legislature at Frankfort has time to take up the second class bill of Paducah, it is probable that the library question will remain in abeyance for several weeks yet, and therefore no work begun.

The fact that Mr. Carnegie has settled everything, and is satisfied with the way Paducah has agreed to his proposition, and will carry it out, is something gratifying, however, for nothing now remains to be done but to begin the work and collect from Mr. Carnegie as it is completed.

The letter is from Mr. R. A. F. president of the Home Trust Co., Hoboken, N. J., saying that he will forward the money as explained above, upon receipt of papers signed by the officials and accompanied by the architect's certificate.

DEATH EMINENT RUSSIAN.

JEAN DE BLOCH, COUNCILLOR OF STATE, PASSES AWAY.

London, Jan. 8.—Private telegrams received here from Warsaw announce the death last night of Jean de Bloch, councillor of state of Russia, political economist, railroad expert and author of "The War of the Future." M. Bloch is credited with being the originator of The Hague peace conference, called by the Czar.

The man who fools himself never fools anybody else.

THE PRESS PRAISED.
Every public official should have the broad, sensible idea of journalism enjoyed by Mayor Seth Low, of New York. He appreciates the power of the press in a community, and one of the first things he did upon taking charge a few days ago was to enlist the aid of the newspapers in behalf of his administration. He said it was his wish that every department should afford press representatives the fullest information on all points regarding which the public had a right to know. His views as to the extent to which publicity should be carried may be judged from his further statement that, as far as he knew, there was no act of an administrative or executive character and none that was legislative in its nature that should be kept from the people.

The retiring district attorney of New York, Mr. Philbin, said that the newspapers had rendered him great assistance in his work, and that although often they were familiar with secrets of the premature publication of which would have proven very detrimental to the department, not once had one ever betrayed his confidence.

Mr. Philbin's confidence in the press is not a new thing. He has been a man of such prominence and culture as Mr. Low is not remarkable in anything more than that he has a clever perception of the truths for which Milton and Junius fought in their battles for a free press, but which many men in public life do not yet recognize. Junius said in one of his incomparable essays that if it were possible to imagine a despotism with a free press he would choose it in preference to a humane and enlightened government with a fettered press, if that, too, could be imagined. He said this was because no great abuses were possible when there were men who could make them known through the public prints. On the other hand no abuse or usurpation was impossible to a government where it has the power to veil its acts, anything or everything, in secrecy.

BRIGHT OUTLOOK
FOR REPUBLICANS.

The Globe Democrat thinks that the Republican outlook was never brighter. Everything points to a heavier trade than last year, and to a more general prosperity. Speaking politically, the Globe Democrat says:
"The election for Congress this year will, in a large degree, forecast the result of the Presidential canvass two years later. The Democrats were free with the prognostications a few weeks ago of Republican disagreements on several important issues, but none of these prognostications have shown any signs of verification. On the question of the general treatment of the Philippines there is no divergence of any consequence among the Republicans. This was shown in the action taken by the House on the Philippine tariff bill, in which there was only a trifling defection on the Republican side. On the Cuban question there is likewise practical unanimity. If there should be a disagreement on the ship subsidy question, it can not possibly be greater than was that in the late Congress, twelve months ago, and that divergence, as the overwhelming victory for McKinley afterward proved, did not hamper the Republicans in the slightest degree. The Democratic secessionists have been widely astray in their divisions of Republican discord. The party was never more harmonious and enthusiastic than it is at this moment. An overwhelming majority of the people of the United States are, manifestly, on the Republican side. A reverse of some dimensions or other for the party in power is the rule in the Congressional election in the middle of the Presidential term, but it seems clear that the Republicans in the canvass of 1902 will pass this danger line in safety as they did in the Congressional contest of 1898, when the conditions were far less propitious than they are today."

NOT HEARD OF.
BODY OF JESSE THOMPSON MAY NOT BE RECOVERED AT ALL.

Captain Tyler of the Buttrick stated this morning that the body of Jesse Thompson, the Nashville negro who was drowned Sunday twelve miles above Paducah, may not be recovered for weeks, if at all, on account of the stage of the river. Thompson, who was a roaster, was standing near the gunwale of the boat, and seems to have been reached by a guy rope and fell backward. He was never even seen again.

TO MAMMOTH CAVE.
A PARTY OF PADUCAH YOUNG MEN TO RIDE THEIR BIKES.

A number of the young men of the city are getting up a party to ride to Mammoth Cave on wheels this summer, the first good weather in the school vacation. Already over one dozen have consented to go, and daily the crowd grows. The trip will be made in two days, and the party will spend two days at the cave, returning at the expiration of about one week from the time the start was made.

The Democratic papers have recently had a great deal to say about the alleged unfair and unequal distribution of prize money due the officers who participated in the battle of Fautang. They seemed to have no regard for the

fact that the distribution was made by law, in accordance with clearly defined rules and precedents. At last the very friendly criticisms have provoked an explanation from Secretary Long, who declares that the claim that Admiral Schley was discriminated against in the distribution of prize money is unjust, because the navy department has absolutely no control over such matters. The navy department, rather than run the risk of making an unsatisfactory division, placed the whole thing in the hands of the court of claims, and the reason Admiral Sampson received so much was because a commander-in-chief of the fleet he was legally entitled to it, and could not be deprived of it, whether he was present at the battle or not. The distribution was made in accordance with the law, and the navy department did not make the law, and could not change it. The letter of Secretary Long is a fitting rebuke to the unreasonable legions who have been debauching the administration so long for the misfortunes of Admiral Schley.

The supreme court of the United States has decided that the Kentucky constitution relative to long and short haul clause is constitutional. The case was taken up by the L. and N. rail a. l. which had been fined \$300 for charging more to haul certain commodities a short distance than a long one. It is claimed that the provision of the constitution relative to the hauling clause was a violation of the fourteenth amendment of the federal constitution. Justice Shiras, who rendered the opinion of the court, said it was merely a question of state policy. "When," he said, "the citizens of Kentucky voluntarily seek and obtain a grant from the state of a charter to build and maintain a public highway in the form of a railroad, it would seem to be evident that they take, hold and operate their road subject to the constitutional inhibition we are considering and without power to challenge its validity."

It doesn't seem to have been long since one of our city officials raised a ruckus because he found that he had subscribed for stock in a newspaper in which some "Gold Bug" Democrats were interested. He wrote a card, intimating that he could never contaminate his pure, undefiled Democracy by being interested in the same newspaper with such a breed of Democrats. So he drew out the paper continued to appear regularly, and now he has become an officer in a paper whose peculiar style of Democracy may suit him pretty well when his own party, in power at the city hall, gets through ripping his administration to pieces.

A new bill has been introduced in Congress to restrict immigration. Among those it bars are those who have engaged in any plot against a government, polygamists, anarchists, nihilists, or members of any secret order whose tenets are at variance with the principles on which the United States government is founded. The gentleman who introduced the bill doesn't furnish a recipe for telling just which of these men is when he lands in this country.

When we get two telephone systems, if your grocer doesn't happen to have the same kind of telephone you do, when you want something in a hurry, you can send across the street or next door and borrow your neighbor's.

It is understood that Captain Richmond Hobson is to resign his position in the navy in order to run for Congress. It begins to look as if anyone can break into the National Assembly.

Rudyard Kipling is being denounced in England for some of his latest stuff. It reminds one of the old story that if you give a calf rope enough it will hang itself.

Judging from the price they are getting it down to, it will not be as pleasant to board in the lookup hereafter as it has been heretofore.

The company was recently reorganized, increasing its capital stock several thousand dollars. Its business is growing so rapidly that the increase was made necessary, and this year the prospects are brighter than ever before.

WILL PROBABLY CONDEMN.
COMMITTEE TO PASS ON THE
BETHSHAHES BUILDING
TODAY.

Fire Chief Woods said this morning in regard to the condemning of the Bethshahes building on Broadway near Third street, that the committee would probably inspect the building today and decide what shall be done with it. The matter was referred to the fire committee and the city engineer at the meeting of the city council Monday night and in all probability the building will be condemned as it is considered unsafe. The walls are badly sprang and have been for several years. The timbers are unsafe and there are numerous other things the matter with the house that will render it unsafe even to stand, according to Chief Woods.

Chief Wood made war upon the buildings on lower Broadway about one year ago and succeeded in having them all torn down and several have already been rebuilt.

CAPE NOME CONSPIRACY.
DISTRICT ATTORNEY WOODS
SENTENCED TO FOUR MONTHS'
IMPRISONMENT, AND DISTRICT
ATTORNEY FROST MUST
SERVE A YEAR.

San Francisco, Jan. 8.—The United States circuit court of appeals today fined Judge Arthur H. Noyes \$1,000 for contempt of court. United States Attorney Joseph K. Wood and his assistant, C. A. S. Frost, were sentenced to imprisonment for terms of four months and one year, respectively. The only one of the defendants present was Frost.

The opinion of the court was read by Judge Morrow, who said: "I concur in the findings of facts contained in the opinion of Judge Gilbert in the cases of Arthur H. Noyes, Joseph K. Wood and C. A. S. Frost. I am also of the opinion that the evidence does not establish the case against Judge Geary."

"In my judgment the evidence established the fact that there was a conspiracy between the respondent, Alex Mackenzie, and others to secure possession of certain valuable mining claims in Alaska under proceedings involving the appointment of a receiver for the purpose of working the properties and obtaining the gold deposited in the claims. To carry these proceedings to a supposed conclusion Noyes, Mackenzie and others found it necessary that they should resort to the process of this court. In pursuance of this conspiracy the respondent charged against Noyes was committed, but I agree with Judge Gilbert that this conspiracy is outside the charge of contempt, and as I note the fact that the respondent, Noyes, holds a judicial position, I concur in his judgment that the respondent be required to pay a fine of \$1,000."

Judge Gilbert and Judge Morrow were of the same opinion in all respects.

AIRSHIP COMPETITION.
London, Jan. 8.—Regarding the published statement that the managers of the St. Louis exhibition have decided to offer \$200,000 for an airship competition, Sir Hiram Maxim, the American inventor, said to a representative of the Associated Press this evening: "I have not heard anything on the subject beyond press reports and certainly shall not spend any money on that basis. I have spent \$100,000 in aerial experiments in the past. If I get an invitation in official form and the St. Louis managers put up \$200,000 in a bank, I am willing to spend \$100,000 more to win and thus recoup myself, which I feel reasonably confident I could do."

Santos-Dumont and Langley are mentioned as probable competitors for the St. Louis prize.

QUESTIONS.

Trenton, N. J., Jan. 8.—John H. Pitney and ex-Senator Lindsay of Kentucky today petitioned Vice Chancellor Emory for an order to compel the officers of the Distilling Company of America to answer the questions pertaining to that organization which they declined to answer in New York in September last. The petitioner asks that the company be compelled to declare a dividend. The hearing of the application was set for February 8.

TAKING NO CHANCES.
Popular Bluff, Mo., Jan. 8.—James E. Harrison of Sikeston, city assessor, died and was buried.

Mr. Harrison was a man with peculiar ideas. Long before his death he had his coffin made of two-inch oak, and he had no coffin box. The coffin, which was nicely dressed, required sixteen men to lower it into the grave. A mattress and springs were placed under him in the coffin. Mr. Harris had ordered that a guard should be placed at his grave and a strict watch kept for three days and nights. In connection with this, however, he ordered that a pump pipe be so placed in the grave with a bell attached on top and a rope drawn through the pipe and placed in his hands, so that if he should during that time show any signs of life, he would ring the bell and attract the attention of the guard, who would notify the people and have him taken from the grave.

FIVE DOLLARS A BOX.

THE PRICE OUT NO FIGURE WITH HIM.

"I want to say for the benefit of some poor dyspeptic that Stuart's Dyspeptic Tablets will give comfort and a cure every time. Five dollars a box every time."

a box would not stop my purchasing them should I ever suffer again as I did for a week before using them.

The one 50 cent box I bought at my druggist's did the work and my digestion is all right again.

Many of my neighbors have also tried these tablets and found them to be just as represented and Mr. Ellis also wants me to use his name in endorsing Stuart's Dyspeptic Tablets.

Signed: A. ELLIS and CHAS. F. BUZZELL, Asst. Postmaster.

South Salisbury, Mass.

Mrs. James Barton, of Toronto, Canada, writes: "For eighteen months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors, without any sign of a cure. I felt so ill at last I was hardly able to do my work."

"I thought I would try a box of Stuart's Dyspeptic Tablets and see if they would make me feel better, never really thinking I had dyspepsia, but after only three or four tablets had been taken all the acid trouble disappeared and then I discovered I had had acid dyspepsia, while the doctors had been treating me for kidney rheumatism."

"My digestion is fine, my complexion clear and I am able to do my work and live spirits are unknown to me."

"I am so thankful for finding a cure so good and so pleasant to take as Stuart's Dyspeptic Tablets. I am surprised at the change they have made in me."

All druggists sell and recommend Stuart's Dyspeptic Tablets, because they contain only the simple natural ingredients, and taken after meals prevent acidity and cause prompt digestion and assimilation of food.

Physicians everywhere endorse them because they are as safe for the child as for the adult; they are invaluable for sour stomach, nervous dyspepsia, heartburn, gas on stomach and bowels and every form of stomach derangement.

AN ORDINANCE.

IT IS PROBABLE THAT THE COUNCIL WILL HAVE A NEW ONE ON LOOKUP.

Mayor Yeiser was probably misquoted in a contemporary, which stated that he overlooked the appointment of a lookup keeper at Monday night's council meeting. The article in question leaves the impression that he fully intended to make the appointment, and simply forgot it.

The truth is that Mayor Yeiser is not ready to make the appointment until he is certain what the council wants to do. There is a proposition before the council, which will be backed by a good bond, it is presumed, to take the position of lookup keeper for twelve and a half cents per meal, the present price being fifteen.

If this can be done, there is no excuse for paying fifteen, but the proposition cannot be accepted unless an ordinance is drawn fixing the price at the figure named in the proposition. It is understood that this will be drawn and submitted to the council at its next meeting.

DESPERATE ATTEMPT.

WHY THE MAN KILLED BY LINCOLN'S MEMORY.

New York, Jan. 7.—The American Missionary association has issued an appeal to the congregations and churches of the country to observe Sunday, February 9, as a memorial to Abraham Lincoln, whose birthday is February 12. The churches, and especially their Sabbath schools and Endeavor societies, are urged to emphasize Christian patriotism.

"Abraham Lincoln," says this appeal, "was born in the mountains of the South, where schools and churches have been established by this association. Negroes have grown into a great multitude of more than 8,000,000, among whom this association has planted its institutions and missions. Through its missionaries, the colored people are being trained in school, on the farm and in the shop, and for a safe citizenship and Christian responsibility. President Lincoln urged the kind and Christian treatment of the Indians. The negro and the Indian departments of the missionary work carried on by this association are, therefore, naturally suggested by his name."

AMERICAN SAILORS

FIGHT RUSSIAN SOLDIERS IN CHINA.

Washington, Jan. 8.—A serious clash has occurred between sailors on the United States steamship Vicksburg and the Russian soldiers at Nienchuan, China. There have been three fights, and as a result one Russian soldier is reported as wounded. The matter was made the subject of a complaint by the Russian ambassador at Peking to United States Minister Conger, and Mr. Conger in turn has informed the state department. Secretary of the Navy Long has called Commander Berry of the Vicksburg to use every effort to prevent further collisions. The Vicksburg is in winter quarters in a mud dock at the mouth of the river, and cannot be released before spring.

J., has tested the merits of FOLEY'S HONEY AND TAR with this result: "I have used a great many patent remedies in my family for coughs and colds, and I can honestly say your Honey and Tar is the best thing of the kind I have ever used and I cannot say too much in praise of it."

UNITED STATES THE MECCA.

London, Jan. 7.—Official statistics show that 302,848 emigrants left the United Kingdom for places outside of Europe during 1901, an increase of 4287, as compared with the figures for the previous year. As usual, the great majority of them went to America, the United States receiving 194,888 and British North America 43,013. The figures in the former case show an increase of 5497 and in the latter of 6994.

CRUTCH-BOUND.

The man with the crutch never fails to arouse the deepest sympathy and awaken the tenderest emotions of his more fortunate fellow being. The haggard countenance, swollen joints and twisted and deformed limbs tell a pathetic story of suffering such as Rheumatism alone can inflict. Only those who are painfully and slowly hobbling through life can fully realize what it means to be crutch-bound. They feel most keenly their helpless and dependent condition when it dawns upon them that they are no longer workers but unwilling drones in the busy world.

Rheumatism should not be neglected because the pains at first are wandering and slight. These are only the rumblings of an approaching storm of pains and aches that may transfer you from a life of activity to the ranks of the crutch-bound cripples.

Rheumatism is due to acid gritty particles being deposited in the joints, muscles and nerves by an impure and too-acid blood, and the strongest constitutions or muscles of iron and nerves of steel can long withstand these corroding poisons. They penetrate to every fibre of the body, and no liniment, lotion or other external application can reach and dislodge them.

Helpless From Rheumatism.

I was terribly afflicted with Rheumatism for eighteen months, and during my sickness tried the skill of many good physicians, all of whom pronounced my case hopeless. I was for a year in such a helpless condition that I was unable to dress or feed myself. I had filled at different times, fifty-two prescriptions suggested by friends, none of them giving me any relief. Finally I decided to try S. S. S. and took the first dose while hobbling about on crutches. After taking two bottles I found so much relief I was able to relinquish the use of one crutch, and a faithful continuance of the medicine relieved me of the other crutch and shortly afterward enabled me to go to my work, at which I have been ever since. I have had no return of any symptoms of Rheumatism, although this was seven years ago. Yours very truly,

J. O'MALLEY.

2185 N. Senate Ave., Indianapolis, Ind.

The correct treatment—the true cure for Rheumatism—is a remedy that will dissolve and wash out this inflammatory matter and expel it from the system, and no medicine does this so promptly and thoroughly as S. S. S. It neutralizes and eliminates from the blood current all poisonous, noxious substances and makes the blood pure and strong again and, as it circulates through the body, all effete matter is gathered up and sent out through the proper channels. This rich new blood cools the feverish, throbbing muscles and joints and refreshes the tired nerves, and welcome relief comes to the wretched sufferer.

S. S. S. contains no Potash, Opium, Anodyne or mineral of any description, but is a Guaranteed Purely Vegetable Compound.

The strong minerals that are usually prescribed in Rheumatic cases act very injuriously upon the lining of the stomach, causing inflammation and a most distressing form of dyspepsia.

S. S. S. not only purifies the blood, but at the same time invigorates and tones up the whole system, increases the appetite, strengthens the digestion and restores the rheumatic sufferer to sound health again.

Send for our special book on Rheumatism, which is free to all who desire it. Write our physicians about your case, and they will cheerfully furnish any information or advice wanted free of cost.

COALERS IN COLLISION.

London, Jan. 7.—The British steamer Alfonso from Newport, December 15, for Gibraltar, and the Spanish steamer Vileva, both loaded with coal, collided during the night of January 4 off Alveito, Portugal. Both vessels sank. Eighteen men of the Alfonso and one man belonging to the Vileva were drowned.
